

## **Last Call for Presentations!**

**The online submission window for Lectures, Workshops, and Poster proposals is still open!  
The OFIA conference will be held in Niagara Falls,  
May 2nd, through May 5th, 2023.**

Do you have a case study or research project that you would be willing to share? How about a management strategy or casework technique you have worked hard to develop? Do you have a skill that those new in the field could practice, or a new way of doing something that all professionals should hear about? What about an old technique that had fallen out of practice and has now been “re-discovered?”

If so, It is time to submit your idea to OFIA for consideration as a presentation to be included in the 2023 OFIA Educational Conference.

- Consider a lecture or workshop if your information can be shared in 30-90 minutes.
- Consider a poster if you are more comfortable having one-on-one discussions with attendees about your information and/or for topics with a very specific focus.

**Lectures and Workshops proposals may be submitted until February 6th, 2023. The submission form is linked [HERE](#)**

**Poster proposals may be submitted until February 28th, 2023.  
(Research by Students is welcome)**

**For more information regarding, Lectures, Workshops, Posters and a link to the Hotel (DoubleTree Fallsview Resort), please go to the OFIA Web Site at [OFIA.CA](#)**
